

A comment concerning the fact that the radio station, K-LOVE provides a wonderful alternative to family listening in our area. The loss of stations like K-LOVE leave a gap in the type of entertainment that can not be found elsewhere in the radio community. There are many options in the world of radio already. The type of service provided by this station and others like it will be an area that will not be available if they are allowed to be replaced by the LPFM stations providing other types of programming. Please take this into consideration when determining the fate of these stations. I strongly encourage you to let K-LOVE remain on the air! Thank you for your time .

Sincerely,
Greg Nieto
